

## CUSTOMER TESTIMONIAL

# "NO OTHER LINE CAN MATCH THE SPEED, FLEXIBILITY, AND RELIABILITY OF A RED BUD"

*Tom Boriack  
Curtis Steel Company, Ltd  
Houston, TX*

### CUSTOMER SATISFACTION IS OUR HIGHEST PRIORITY

"The time had come for us to replace some older processing lines. We needed a new line that could increase our production efficiency and processing capacity as well as improve the quality of the products we deliver to our customers. We felt that a Red Bud Multi-Blanking Line was exactly what we needed. No other line can match the speed, flexibility, and reliability of a Red Bud.

Our new Red Bud Line has done everything that we've asked of it. Our sales force is now able to pursue orders from a variety of different industries with the confidence of knowing our processing equipment will be able to produce it within tolerance and without limits. We also have the added comfort of knowing Red Bud's terrific service and extensive parts supply will keep us running and serving our customers."
