

Red Bud's customer service has been outstanding throughout the process. From personally showing us their manufacturing facility, to the design, installation, and training, they've been beside us every step of the way.

[Tyler Colling, Branch Manager, Pacific Steel & Recycling]

Red Bud

Delivering Engineered Growth

**COMPLETE
COIL PROCESSING
SOLUTIONS**

When Pacific Steel and Recycling, a company with a 100+ year legacy, decided to expand into new markets, they put pencil to paper to run the numbers. With 40 locations in 9 states in the western United States, factors such as productivity, efficiency, logistics, and new market penetration all "penciled out" as the company researched and interviewed other companies to discover who they could partner with to maximize their investment. That search led to Red Bud Industries.

"We are very excited about our new 1/2" x 96" wide Red Bud Stretcher Leveler and expect to hit capacity very soon. As we continue to grow this line, we will absolutely look to work with Red Bud Industries in the future." — Ed Joyce
