

“The Quality That Comes Off the Line Is Exceptional!”

David Bernstein
State Steel Supply Company
Sioux City, Iowa

“We were looking for a new Cut-To-Length Line for our Omaha facility. We had heard good things about Red Bud’s Stretcher Levelers, so we decided to take a look. We were impressed with what they offered, so we decided to buy one of their machines.

Now that the line is in operation, I have to say we are very happy with the system. The quality that comes off the line is exceptional. Our customers really like the product. Working with Red Bud was a positive experience. Their people were good to work with and they made sure the equipment went in without any hassles and was up and running quickly. The new line has lived up to our expectations. We are very happy with our decision.”

THE RED BUD ADVANTAGE

Ask us about how we can retrofit one of our Stretchers into your existing line.

- “SUREGRIP®” non-slip long life metallic grippers
- Adjustable clamp centers
- Adjustable clamps relative to Shear
- Adjustable clamp pressure
